

A reminder as you navigate picking up and dropping off your students as car riders, it is important that parents and students adhere to traffic rules for safety reasons. We request parents only use the front office lot, outer loop, to drop off students, and not cut through parking lot lanes. Please be sure to carefully follow the signs and the staff who are in the lot directing vehicles. We also would like to remind you to use turn signals when entering or exiting lanes to notify other drivers of your intentions. This will minimize chances of fender benders and ensure safe student transitions. Additionally, please do not park on Old Annapolis Road, and use safe driving while on the road passing through the LHS area during drop-off and dismissal. We appreciate your cooperation so we can keep our Lancer Community safe throughout the drop-off and dismissal process.
